- Creative Thinking
- Customer Orientation
- Brand Development

CAREER OBJECTIVE

Aspiring Web Developer with hands-on experience in the MERN stack, along with skills in SEO and Digital Marketing. Looking for a professional opportunity in a software house where I can contribute to real-world web projects and grow further as I begin exploring game development in my upcoming semester.

PROJECTS

E-commerce Web Application (MERN Stack)

MongoDB, Express.js, React.js, Node.js

Developed a full-featured e-commerce application with both Admin and Customer views. Key functionalities include:

- User authentication with secure Sign-up/Sign-in
- Admin dashboard with product creation, listing, and sidebar navigation
- Shopping view with product listing, detailed product dialog, cart, and checkout process
- Additional features: Search functionality, user reviews, account management, and a responsive homepage layout
